We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Fair Fight - Anna Freeman 2015-04-14

NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, The Fair Fight is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, The Fair Fight is a raucous, intoxicating tale of courage, reinvention, and fighting one's way to the top.

Semiannual Report - United States. Department of Agriculture. Office of the Inspector General 1982

Autism Diagnostic Observation Schedule - Catherine Lord 2002

Ageing and Pension Reform Around the World - Giuliano Bonoli 2006-01-01

This is an admirable example of a multi-authored comparative book. The two editors set the scene very carefully in the opening chapter and the subsequent chapters follow the framework set out and use the concepts explored there. In this never simple policy area, national systems are explained as clearly as possible by each author. Michael Hill, Journal of Social Policy This is an enlightening introduction to the global dimensions and complexity of pension reform. Recommended. J.F. O Connell, Choice Population ageing and the resulting pressures on existing pension systems constitutes one of the most important challenges modern societies will have to face over the coming decades. Although governments have responded to such pressures by adopting a plethora of pension reforms, the adaptation process is far from over. This book comprehensively documents developments in pension policy in eleven advanced industrial countries in Western Europe, East Asia and North America. In order to explore what population ageing means for the sustainability of pension systems, the authors present a detailed review of pension policy making over the past two decades and provide up-to-date analysis of current pension legislation. They examine the factors that can facilitate or impede the adaptation of pension systems and the features that shape and determine reforms. They also highlight the fact that although the path of reform taken by each country is somewhat different, the processes at work are often very similar. Ageing populations throughout the world are extremely reluctant to see their pension systems dismantled and are therefore prepared to mobilise in their defence. This process of mobilisation interacts with demographic pressures and institutional constraints to help determine the future direction of pension policy. The breadth of geographic coverage provides an almost global picture of the impact of ageing on pension reform, at least in terms of high income countries. Academics and students with an interest in economics, social policy, sociology and political science will find this a worthwhile and rewarding volume. It will also be of value to policymakers interested in how the problem of unsustainable pension systems can be resolved.

Motivations Associated with Food Choices and Eating Practices - Raquel P F Guiné 2021-11-19

This book is generally focused on food choice and which factors are associated with the decisions that define people's eating behaviour. These factor are highly variable and include influences from the surrounding environment as well as the individual characteristics of each person. The book includes a number of chapters that address these issues from different points of view. Some explore the psychology of food choices or the cultural aspects and tradition, as well as the influence of surrounding contexts. Others focus on the role of lifestyle on eating practices and health motivations, but also the food marketing and the sensory aspects of food, as a way to incentive consumption. Finally, sustainability concerns and environmental impacts can also shape and help change people's food choices. Within the chapters gathered on this book you will find key topics that apply to everyday food choices or that can help target food consumption goals towards better health, more sustainable food chains and happier life styles.

Wood Production, Wood Technology, and Biotechnological Impacts - Ursula Kües 2007

In the year 2001, Prof. Dr. Ursula Kües was appointed at the Faculty of Forest Sciences and Forest Ecology of the Georg-August-University Göttingen to the chair Molecular Wood Biotechnology endowed by the Deutsche Bundesstiftung Umwelt (DBU). Her group studies higher fungi in basic and applied research. Research foci are on mushroom development and on fungal enzymes degrading wood and their applications

in wood biotechnology. This book has been edited to thank the DBU for all support given to the chair Molecular Wood Biotechnology. Contributions to the book are from scientists from Göttingen recognised in different fields of forestry and wood science. Chapters presented by members of the group Molecular Wood Biotechnology introduces into their areas of research. The book is designed for interested students of wood biology and wood technology but will also address scientists in the field.

Propaganda - Edward L. Bernays 2005

Reprint of a seminal 1928 work from the father of public relations and modern political spin

Global Status Report on Noncommunicable Diseases 2014 - World Health Organization 2015-03-31

This global status report on prevention and control of NCDs (2014), is framed around the nine voluntary global targets. The report provides data on the current situation, identifying bottlenecks as well as opportunities and priority actions for attaining the targets. The 2010 baseline estimates on NCD mortality and risk factors are provided so that countries can report on progress, starting in 2015. In addition, the report also provides the latest available estimates on NCD mortality (2012) and risk factors, 2010-2012. All ministries of health need to set national NCD targets and lead the development and implementation of policies and interventions to attain them. There is no single pathway to attain NCD targets that fits all countries, as they are at different points in their progress in the prevention and control of NCDs and at different levels of socioeconomic development. However all countries can benefit from the comprehensive response to attaining the voluntary global targets presented in this report.--Publisher description.

Guidance Manual for the Valuation of Regulating Services - Unep 2010

Airport/facility Directory - 1985

Building on Values - Commission on the Future of Health Care in Canada 2002-01-01

In April 2001, the Prime Minister established the Commission on the Future of Health Care in Canada. Its mandate was to review medicare, engage Canadians in a national dialogue on its future, and make recommendations to enhance the system's quality and sustainability. The 47 recommendations in this report outline actions that must be taken in 10 critical areas, starting by renewing the foundations of medicare and considering Canada's role in improving health around the world.

Our Public Lands - 1965

Green-lite - G. Bruce Doern 2015-11-01

Anchored in the core literature on natural resources, energy production, and environmental analysis, *Green-lite* is a critical examination of Canadian environmental policy, governance, and politics drawing out key policy and governance patterns to show that the Canadian story is one of complexity and often weak performance. Making a compelling argument for deeper historical analysis of environmental policy and situating environmental concerns within political and fiscal agendas, the authors provide extended discussions on three relatively new features of environmental policy: the federal-cities and urban sustainability regime, the federal-municipal infrastructure regime, and the regime of agreements with NGOs and businesses that often relegate governments to observing participants rather than being policy leaders. They probe the Harper era's muzzling of environmental science and scientists, Canada's oil sands energy and resource economy, and the government's core Alberta and Western Canadian political base. The first book to provide an integrated, historical, and conceptual examination of Canadian environmental policy over many decades, *Green-lite* captures complex notions of what environmental policy and green agendas seek to achieve in a business-dominated economy of diverse energy producing technologies, and their pollution harms and risks.

Research for Universal Health Coverage - Christopher Dye 2013

"The World Health Report: research for universal health coverage" focuses on the importance of research in advancing progress towards universal health coverage. In addition, it identifies the benefits of increased investment in health research by low- and middle-income countries using case studies from around the

world, and proposes ways to further strengthen this type of research.

Our New York - Carl Heilman

Patient Involvement in Health Technology Assessment - Karen M. Facey 2017-05-15

This is the first book to offer a comprehensive guide to involving patients in health technology assessment (HTA). Defining patient involvement as patient participation in the HTA process and research into patient aspects, this book includes detailed explanations of approaches to participation and research, as well as case studies. Patient Involvement in HTA enables researchers, postgraduate students, HTA professionals and experts in the HTA community to study these complementary ways of taking account of patients' knowledge, experiences, needs and preferences. Part I includes chapters discussing the ethical rationale, terminology, patient-based evidence, participation and patient input. Part II sets out methodology including: Qualitative Evidence Synthesis, Discrete Choice Experiments, Analytical Hierarchy Processes, Ethnographic Fieldwork, Deliberative Methods, Social Media Analysis, Patient-Reported Outcome Measures, patients as collaborative research partners and evaluation. Part III contains 15 case studies setting out current activities by HTA bodies on five continents, health technology developers and patient organisations. Each part includes discussion chapters from leading experts in patient involvement. A final chapter reflects on the need to clearly define the goals for patient involvement within the context of the HTA to identify the optimal approach. With cohesive contributions from more than 80 authors from a variety of disciplines around the globe, it is hoped this book will serve as a catalyst for collaboration to further develop patient involvement to improve HTA. "If you're not involving patients, you're not doing HTA!" - Dr. Brian O'Rourke, President and CEO of CADTH, Chair of INAHTA
Culture Shock! - Ilsa Sharp 2003

Implementing Inclusive Education - Richard Rieser 2012

This revised and expanded second edition of *Implementing Inclusive Education* shows how Commonwealth countries are attempting to undertake inclusion in education, and will encourage all those charged with ensuring education for all to make certain that disabled children are fully included in all aspects of the education system.

Competition in the Oil Industry - Energy Policy Research Project 1976

Canadian Public Budgeting in the Age of Crises - G. Bruce Doern 2013

In the aftermath of the 2008 financial crunch, a pending era of budgetary austerity looms over Canada. *Canadian Public Budgeting in the Age of Crises* provides a roadmap through the difficult fiscal decisions that have characterized contemporary federal politics across four decades. The authors provide an accessible and comprehensive overview of the constraints that have affected budgetary outcomes in the recent past and that will affect the near future, with analysis spanning micro, macro, social, environmental, and intergenerational domains. They examine the current Harper government's Conservative era, but also look at public budgeting under Chrtien, Mulroney, and Trudeau. Set in the crucial context of macroeconomic policy shifts and in a global comparative context, *Canadian Public Budgeting in the Age of*

Crises broadens and deepens our understanding of government spending, borrowing, and taxing. Budgetary domains - complex realms of fiscal content, choice, and governance - are introduced and balanced against an analysis of these domains with pertinent and up-to-date discussions on institutional influences, dominant actors, and shifting power imbalances.

Achtung-Panzer! - Heinz Guderian 1995

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Lands and Forests Act - 1941

This act covers the division of public lands, the procedures for cancellation and transfers of public lands, and the administration and use of woods and forests on Public lands.

CALCULUS, 7TH ED (With CD) - Anton 2007-05-01

Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Comprehensive Health Insurance - Deborah Vines-Allen 2015-06-03

"COMPREHENSIVE HEALTH INSURANCE: BILLING, CODING & REIMBURSEMENT, 2/e" provides students with the knowledge and skills needed to work in a variety of medical billing and coding positions in the medical field. Comprehensive in approach, it covers the foundations of insurance, billing, coding and reimbursement. Students learn not only the submission of claims to the insurance carrier, but also reviewing medical records, verifying patient benefits, submitting a secondary claim, posting payments and appealing the insurance carrier's decision. This edition includes new chapters devoted to HIPAA and ICD-10-CM Medical Coding, as well as outstanding coverage of electronic records. Numerous case studies and patient files are included throughout and demonstrate refunds and appeals, auditing and compliance, Medicare calculations and professionalism.

Toward Universal Health Coverage and Equity in Latin America and the Caribbean - Tania Dmytraczenko 2015-06-30

Over the past three decades, many countries of Latin America and the Caribbean have recognized health as a human right. Since the early 2000s, 46 million more people in the countries studied are covered by health programs with explicit guarantees of affordable care. Reforms have been accompanied by a rise in public spending for health, financed largely from general revenues that prioritized or explicitly target the population without capacity to pay. Political commitment has generally translated into larger budgets as well as passage of legislation that ring-fenced funding for health. Most countries have prioritized cost-effective primary care and adopted purchasing methods that incentivize efficiency and accountability for results, and that give stewards of the health sector greater leverage to steer providers to deliver on public health priorities. Evidence from the analysis of 54 household surveys corroborates that investments in extending coverage are yielding results. Though the poor still have worse health outcomes than the rich, disparities have narrowed considerably - particularly in the early stage of the life course. Countries have reached high levels of coverage and equity in utilization of maternal and child health services; coverage of noncommunicable disease interventions is not as high and service utilization is still skewed toward the better off. Catastrophic health expenditures have declined in most countries; the picture regarding equity,

however, is mixed. While the rate of impoverishment owing to health-care expenditures is low and generally declining, 2-4 million people in the countries studied still fall below the poverty line after health spending. Efforts to systematically monitor quality of care in the region are still in their infancy. Nonetheless, a review of the literature reveals important shortcomings in quality of care, as well as substantial differences across subsystems. Improving quality of care and ensuring sustainability of investments in health remain an unfinished agenda.

Uranium for Nuclear Power - Ian Hore-Lacy 2016-02-19

Uranium for Nuclear Power: Resources, Mining and Transformation to Fuel discusses the nuclear industry and its dependence on a steady supply of competitively priced uranium as a key factor in its long-term sustainability. A better understanding of uranium ore geology and advances in exploration and mining methods will facilitate the discovery and exploitation of new uranium deposits. The practice of efficient, safe, environmentally-benign exploration, mining and milling technologies, and effective site decommissioning and remediation are also fundamental to the public image of nuclear power. This book provides a comprehensive review of developments in these areas. Provides researchers in academia and industry with an authoritative overview of the front end of the nuclear fuel cycle Presents a comprehensive and systematic coverage of geology, mining, and conversion to fuel, alternative fuel sources, and the environmental and social aspects Written by leading experts in the field of nuclear power, uranium mining, milling, and geological exploration who highlight the best practices needed to ensure environmental safety

World Economic Outlook, October 2015 - International Monetary Fund. Research Dept. 2015-10-06

This issue discusses a number of factors affecting global growth, as well as growth prospects across the world's main countries and regions. It assesses the ongoing recovery from the global financial crisis in advanced and emerging market economies and evaluates risks, both upside and downside, including those associated with commodity prices, currency fluctuations, and financial market volatility. A special feature examines in detail causes and implications of the recent commodity price downturn; analytical chapters look at the effects of commodity windfalls on potential output and of exchange rate movements on trade.

Understanding Mattessich and Ijiri - Nohora Garcia 2017-11-16

This book deals with current discussion of the classic works by two prominent authors on accounting, R. Mattessich and Y. Ijiri. Their antecedents, and the way in which each author came to construct his work, make up the central subject of this study.

Labour Market Policies in Switzerland - 1996

Journal of the Proceedings of the Board of Supervisors of the County of Allegany - Allegany County (N.Y.). Board of Legislators 1916

Masterpieces of Swiss Entrepreneurship - Jean-Pierre Jeannot 2021-04-21

This open access book focuses on Switzerland-based medium-sized companies with a longstanding export tradition and a proven dominance in global niche markets. Based upon in-depth documentation and analysis of 36 Swiss companies over their entire history, an expert team of authors presents several parallels in the pathways and success factors which allowed these firms to become dominant and operate from a high-cost location such as Switzerland. The book enhances these insights by providing detailed company profiles documenting the company history, development, and how their relevant global niche positions were reached. Readers will benefit from these profiles as they compile a diverse selection of industries, mainly active within the B2B sector, with mostly mature companies (60 years to older than 100 years since founding) and different types of ownership structures including family firms. 'Masterpieces of Swiss Entrepreneurship' brings unique learning opportunities to owners and leaders of SMEs in Switzerland and elsewhere. Findings are based on detailed bottom-up research of 36 companies -- without any preconceived notions. The book is both conceptual and practical. It fosters understanding for different choices in development pathways and management practices. Matti Alahuhta, Chairman DevCo Partners, ex-CEO Kone, Board member of several global listed companies, Helsinki, Finland Start-up entrepreneurs need proven models from industry which demonstrate the various paths to success. "Masterpieces of Swiss Entrepreneurship" provides deep insights highlighting these models and the important trade-offs

entrepreneurial teams must consider when choosing the path of high growth or of maximum control, as they are often mutually exclusive. Gina Domanig, Managing Partner, Emerald Technology Ventures, Zurich

Guide to the Long Path - New York-New Jersey Trail Conference 1983
