Death Waits in the Dark - Mark Edward Langley 2020-08-04

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and

responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

From these beginnings ... - Roderick Nash 1973

Terrible Revolution - Christopher James Blythe 2020-06-17

The relationship between early Mormons and the United States was marked by anxiety and hostility, heightened over the course of the nineteenth century by the assassination of Mormon leaders, the Saints' exile from Missouri and Illinois, the military occupation of the Utah territory, and the national crusade against those who practiced plural marriage. Nineteenth-century Latter-day Saints looked forward to apocalyptic events that would unseat corrupt governments across the globe, particularly the tyrannical government of the United States. The infamous "White Horse Prophecy" referred to this coming American apocalypse as "a terrible revolution in the land of America, such as has never been seen before; for the land will be literally left without a supreme government." Mormons envisioned divine deliverance by way of plagues, natural disasters, foreign invasions, American Indian raids, slave uprisings, or civil war unleashed

on American cities and American people. For the Saints, these violent images promised a national rebirth that would vouchsafe the protections of the United States Constitution and end their oppression. In *Terrible Revolution*, Christopher James Blythe examines apocalypticism across the history of the Church of Jesus Christ of Latter-day Saints, particularly as it took shape in the writings and visions of the laity. The responses of the church hierarchy to apocalyptic lay prophecies promoted their own form of separatist nationalism during the nineteenth century. Yet, after Utah obtained statehood, as the church sought to assimilate to national religious norms, these same leaders sought to lessen the tensions between themselves and American political and cultural powers. As a result, visions of a violent end to the nation became a liability to disavow and regulate. Ultimately, Blythe argues that the visionary world of early Mormonism, with its apocalyptic emphases, continued in the church's mainstream culture in modified forms but continued to maintain separatist radical forms at the level of folk-belief.

To Build a Better World - Philip Zelikow 2019-09-10

A deeply researched international history and "exemplary study" (*New York Times Book Review*) of how a divided world ended and our present world was fashioned, as the world drifts toward another great time of choosing. Two of America's leading scholar-diplomats, Philip Zelikow and Condoleezza Rice, have combed sources in several languages, interviewed leading figures, and drawn on their own firsthand experience to bring to life the choices that molded the contemporary world. Zeroing in on the key moments of decision, the might-have-beens, and the human beings working through them, they explore both what happened and what could have happened, to show how one world ended and another took form. Beginning in the late 1970s and carrying into the present, they focus on the momentous period between 1988 and 1992, when an entire world system changed, states broke apart, and societies were transformed. Such periods have always been accompanied by terrible wars -- but not this time. This is also a story of individuals coping with uncertainty. They voice their hopes and fears. They try out desperate improvisations and careful designs. These were leaders who grew up in a "postwar" world, who tried to fashion something better, more peaceful, more prosperous, than the damaged, divided world in which they had come of age. New problems are putting their choices, and the world they made, back on the operating table. It is time to recall not only why they made their choices, but also just how great nations can step up to great challenges. Timed for the thirtieth anniversary of the fall of the Berlin Wall, *To Build a Better World* is an authoritative depiction of contemporary statecraft. It lets readers in on the strategies and negotiations, nerve-racking risks, last-minute decisions, and deep deliberations behind the dramas that changed the face of Europe -- and the world -- forever.
