Writing Environments - Sidney I. Dobrin
2012-02-01

"Writing Environments addresses the intersections between writing and nature through interviews with some of America's leading environmental writers. The interviews are followed by critical responses from writing scholars. This diverse range of voices speaks lucidly and captivantly about topics such as place, writing, teaching, politics, race, and culture, and how these overlap in many complex ways."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. How to Read Like a Writer - Mike Bunn
When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

All Quiet on the Western Front - Erich Maria Remarque 1996-09-29

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

[The Art Of Rhetoric](#) - Aristotle 2014-09-02

In *The Art of Rhetoric*, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like ethos, pathos, and logos, Aristotle establishes the earliest foundations of modern understanding of

rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle's work, which dates from the fourth century B.C., was written while the author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike.

Understanding and Evaluating Research -

Sue L. T. McGregor 2017-10-25

Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting results).

Mother - Claudia O'Keefe 1996-05

An anthology of poems includes selections written by such writers as Mary Higgins Clark, Amy Tan, and Faye Kellerman

Rhetorical Strategies for Composition - Karen A. Wink 2020-11-10

Rhetorical Strategies is a worktext for composition students to apply rhetorical theory in their writing. The exercises interconnect rhetorical skill work for students to practice "thinking on paper" in style (rhetorical figures, emphasis, arrangement); language (audience appropriate, diction, syntax); and conventions (MLA style, format, source handling). Content includes: Aristotle's Six Parts of an Argument, Rhetorical Situations, Appeals and Fallacies, Thesis Statements, Topic Sentences, Voice, Stylistics, Revision, Documenting Sources, Grammar/Punctuation/Usage, and Visual Arguments. All skills are reflected in a sample

student research paper. Content is relevant for AP Composition and Language courses as well as college composition and seminar courses with an emphasis on rhetorical principles.

Midnight in Chernobyl - Adam Higginbotham 2020-02-04

A New York Times Best Book of the Year A Time Best Book of the Year A Kirkus Reviews Best Nonfiction Book of the Year 2020 Andrew Carnegie Medals for Excellence Winner From journalist Adam Higginbotham, the New York Times bestselling "account that reads almost like the script for a movie" (The Wall Street Journal)—a powerful investigation into Chernobyl and how propaganda, secrecy, and myth have obscured the true story of one of the history's worst nuclear disasters. Early in the morning of April 26, 1986, Reactor Number Four of the Chernobyl Atomic Energy Station exploded, triggering one of the twentieth century's greatest disasters. In the thirty years since then, Chernobyl has become lodged in the collective nightmares of the world: shorthand for the spectral horrors of radiation poisoning, for a dangerous technology slipping its leash, for ecological fragility, and for what can happen when a dishonest and careless state endangers its citizens and the entire world. But the real story of the accident, clouded from the beginning by secrecy, propaganda, and misinformation, has long remained in dispute. Drawing on hundreds of hours of interviews conducted over the course of more than ten years, as well as letters, unpublished memoirs, and documents from recently-declassified archives, Adam Higginbotham brings the disaster to life through the eyes of the men and women who witnessed it firsthand. The result is a "riveting, deeply reported reconstruction" (Los Angeles Times) and a definitive account of an event that changed history: a story that is more complex, more human, and more terrifying than the Soviet myth. "The most complete and compelling history yet" (The Christian Science Monitor), Higginbotham's "superb, enthralling, and necessarily terrifying...extraordinary" (The New York Times) book is an indelible portrait of the lessons learned when mankind seeks to bend the natural world to his will—lessons which, in the face of climate change and other threats, remain not just vital but necessary.

ABOUT WRITING. - ROBIN. JEFFREY 2018

The Sense of Style - Steven Pinker 2015-09-22

"Pinker has a lot of ideas and sometimes controversial opinions about writing and in this entertaining and instructive book he rethinks the usage guide for the 21st century. Don't blame the internet, he says, good writing has always been hard. It requires imagination, taking pleasure in reading, overcoming the difficult we all have in imagining what it's like to not know something we do know."--Publisher information.

Rising Tide - John M. Barry 2007-09-17

A New York Times Notable Book of the Year, winner of the Southern Book Critics Circle Award and the Lillian Smith Award. An American epic of science, politics, race, honor, high society, and the Mississippi River, *Rising Tide* tells the riveting and nearly forgotten story of the Great Mississippi Flood of 1927. The river inundated the homes of almost one million people, helped elect Huey Long governor and made Herbert Hoover president, drove hundreds of thousands of African Americans north, and transformed American society and politics forever. The flood brought with it a human storm: white and black collided, honor and money collided, regional and national powers collided. New Orleans's elite used their power to divert the flood to those without political connections, power, or wealth, while causing Black sharecroppers to abandon their land to flee up north. The states were unprepared for this disaster and failed to support the Black community. The racial divides only widened when a white officer killed a Black man for refusing to return to work on levee repairs after a sleepless night of work. In the powerful prose of *Rising Tide*, John M. Barry removes any remaining veil that there had been equality in the South. This flood not only left millions of people ruined, but further emphasized the racial inequality that have continued even to this day.

Making Sense of Messages - Mark Stoner 2015-10-16

Using a developmental approach to the process of criticism, *Making Sense of Messages* serves as an introduction to rhetorical criticism for communication majors. The text employs models of criticism to offer pointed and reflective commentary on the thinking process used to

apply theory to a message. This developmental/apprenticeship approach helps students understand the thinking process behind critical analysis and aids in critical writing.

Rhetorical Work in Emergency Medical

Services - Elizabeth L. Angeli 2018-08-30

Rhetorical Work in Emergency Medical Services: Communicating in the Unpredictable Workplace details how communicators harness the power of rhetoric to make decisions and communicate in unpredictable contexts. Grounded in a 16-month study in the emergency medical services (EMS) workplace, this text contributes to our theoretical, methodological, and practical understandings of the situation-specific processes that communicators and researchers engage in to respond to the urgencies and constraints of high-stakes workplaces. This book presents these intricate processes and skills—learned and innate—that workplace communicators use to accomplish goal-directed activity, collaborate with other communicators, and complete and teach workplace writing.

An Illustrated Book of Bad Arguments - Ali Almosawi 2014-09-23

"A flawless compendium of flaws." —Alice Roberts, PhD, anatomist, writer, and presenter of *The Incredible Human Journey* The antidote to fuzzy thinking, with furry animals! Have you read (or stumbled into) one too many irrational online debates? Ali Almosawi certainly had, so he wrote *An Illustrated Book of Bad Arguments!* This handy guide is here to bring the internet age a much-needed dose of old-school logic (really old-school, a la Aristotle). Here are cogent explanations of the straw man fallacy, the slippery slope argument, the ad hominem attack, and other common attempts at reasoning that actually fall short—plus a beautifully drawn menagerie of animals who (adorably) commit every logical faux pas. Rabbit thinks a strange light in the sky must be a UFO because no one can prove otherwise (the appeal to ignorance). And Lion doesn't believe that gas emissions harm the planet because, if that were true, he wouldn't like the result (the argument from consequences). Once you learn to recognize these abuses of reason, they start to crop up everywhere from congressional debate to YouTube comments—which makes this geek-chic book a must for anyone in the habit of holding

opinions.

Hooked - Michael Moss 2021-03-02

NEW YORK TIMES BESTSELLER • From the author of *Salt Sugar Fat* comes a “gripping” (The Wall Street Journal) exposé of how the processed food industry exploits our evolutionary instincts, the emotions we associate with food, and legal loopholes in their pursuit of profit over public health. “The processed food industry has managed to avoid being lumped in with Big Tobacco—which is why Michael Moss’s new book is so important.”—Charles Duhigg, author of *The Power of Habit* Everyone knows how hard it can be to maintain a healthy diet. But what if some of the decisions we make about what to eat are beyond our control? Is it possible that food is addictive, like drugs or alcohol? And to what extent does the food industry know, or care, about these vulnerabilities? In *Hooked*, Pulitzer Prize-winning investigative reporter Michael Moss sets out to answer these questions—and to find the true peril in our food. Moss uses the latest research on addiction to uncover what the scientific and medical communities—as well as food manufacturers—already know: that food, in some cases, is even more addictive than alcohol, cigarettes, and drugs. Our bodies are hardwired for sweets, so food giants have developed fifty-six types of sugar to add to their products, creating in us the expectation that everything should be cloying; we’ve evolved to prefer fast, convenient meals, hence our modern-day preference for ready-to-eat foods. Moss goes on to show how the processed food industry—including major companies like Nestlé, Mars, and Kellogg’s—has tried not only to evade this troubling discovery about the addictiveness of food but to actually exploit it. For instance, in response to recent dieting trends, food manufacturers have simply turned junk food into junk diets, filling grocery stores with “diet” foods that are hardly distinguishable from the products that got us into trouble in the first place. As obesity rates continue to climb, manufacturers are now claiming to add ingredients that can effortlessly cure our compulsive eating habits. A gripping account of the legal battles, insidious marketing campaigns, and cutting-edge food science that have brought us to our current public health crisis, *Hooked*

lays out all that the food industry is doing to exploit and deepen our addictions, and shows us why what we eat has never mattered more.

The Rhetorical Approach in the Federalist Papers No.10, No.54, No.84 and No.85 - Jelena Vukadinovic 2009-05

Seminar paper from the year 2008 in the subject American Studies - Literature, grade: 1,7, RWTH Aachen University, course: American Non-Fiction, language: English, abstract: The eighty-five essays, today commonly referred to as The Federalist Papers, were written in 1787 and 1788 in order to help in securing the ratification of the proposed United States Constitution in the State of New York. Although the essays were all signed Publius, they were written by three men of different background and, to some extent, different political ideas. John Jay, Alexander Hamilton and James Madison have contributed to the Papers in different quantity. Due to an illness Jay has contributed only five articles. Hamilton's and Madison's contributions are not always easy to separate but most scholars ascribe twenty-nine articles to Madison and fifty-one to Hamilton. The authorship of essays "18-20, 49-58, and 62-63 was the subject of heated historical controversy for more than a century and a half, because both Hamilton and Madison allegedly claimed authorship of these essays." The object of this paper is to analyze the rhetorical approach of Madison and Hamilton in selected papers. Also, an attempt will be made to determine if, and to what extent their rhetorical style and political ideas are distinguishable even under the joint guise of Publius. The analysis will be undertaken on the examples of four selected papers - No. 10, 54, 84 and 85, which were chosen as representatives of the respective author's style, since a detailed analysis of all 85 papers would be too extensive for a term paper. Contributions by John Jay are deliberately left out since they consist of only 5 papers which are arguably among the less important ones. Federalist No.10 was chosen as the most famous of Madison's contributions due to its prominence within the scholarly debate and the prevailing significance of the problem discussed in the essay - the dangers or factions within a republic system. No. 54 was chosen

Letters from an American Farmer - J. Crevecoeur 2007-02

First published in England in 1782, Crèvecoeur's *Letters from an American Farmer* was one of the first works to describe the character of the average American at the close of the Revolutionary War. His famous question, "What, then, is the American, this new man?", summarized the European's interest in and questioning of the new country of America at a time when centuries of tradition had just been overturned and post-colonial Americans were attempting to describe themselves in a new way. Through the character of James, the letters celebrate the land of America, its space and fertility, and the character of Americans themselves, their work ethic and spirit of personal determination. The Letters also look at the darker side of American life, particularly the issue of slavery. The discussions of American identity, participation in war (or not), and the perception of immigrants and their ethnicity make this book as relevant to our understanding of ourselves today as it was in 1782.

Writing Spaces - Dana Driscoll 2020-03-07

Volumes in *Writing Spaces: Readings on Writing* offer multiple perspectives on a wide range of topics about writing. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about the craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in first year writing or writing-intensive courses across the disciplines at any level. Volume 3 continues the tradition of previous volumes with topics such as voice and style in writing, rhetorical appeals, discourse communities, multimodal composing, visual rhetoric, credibility, exigency, working with personal experience in academic writing, globalized writing and rhetoric, constructing scholarly ethos, imitation and style, and rhetorical punctuation.

"I Have a Dream" Speech - Martin Luther King (Jr.) 1999

A Summer Life - Gary Soto 1991-08-01

Gary Soto writes that when he was five "what I knew best was at ground level." In this lively collection of short essays, Soto takes his reader to a ground-level perspective, resreating in vivid detail the sights, sounds, smells, and textures he knew growing up in his Fresno, California,

neighborhood. The "things" of his boyhood tie it all together: his Buddha "splotched with gold," the taps of his shoes and the "engines of sparks that lived beneath my soles," his worn tennies smelling of "summer grass, asphalt, the moist sock breathing the defeat of baseball." The child's world is made up of small things--small, very important things.

The Rhetorical Power of Popular Culture -
Deanna D. Sellnow 2010

This introductory textbook unites the study of rhetoric with the persuasive potential of today's 'texts' in popular culture. By providing students with a means by which to understand why popular texts are important to study-as well as how to examine these texts' underlying messages from a variety of rhetorical perspectives-Deanna Sellnow helps readers become critical consumers of the many popular culture texts that influence them in their daily lives. Features & Benefits: This textbook unites rhetorical criticism with mediated popular cultural texts (e.g., film, television, rap music) in ways that relate directly to the experiences of people in society today. Each chapter is devoted to one theoretical perspective (e.g., narrative, dramatic, Marxist, feminist, illusion of life, visual pleasure, media effects) Each chapter provides (a) an explanation of a particular rhetorical theory, (b) examples of messages the theory reveals when applied to various contemporary popular culture texts, (c) embedded applying what you've learned opportunities for students to practice examining a specific film, television

program, song, or advertisement using the theory, (d) one or two scholarly articles that use the theory to examine a popular culture text, (e) one or two sample student papers that use the theory to examine a popular culture text, and (f) an end-of-chapter challenge posed to students to examine in depth a contemporary artifact using the concepts described in the chapter Each chapter opens with reflective questions to guide students to about specific examples as read the chapter.

Just Mercy - Bryan Stevenson 2016

"From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinkmanship - and transformed his understanding of mercy and justice forever."--Back cover.

The Other Wes Moore - Wes Moore
2011-01-11

NEW YORK TIMES BESTSELLER • The "compassionate" (People), "startling" (Baltimore Sun), "moving" (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his "Underrated" Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off

the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

The Great Influenza - John M. Barry
2005-10-04

#1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates "Monumental... an authoritative and disturbing morality tale."—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American

troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

What Do We Know About the World? - Gabrijele Kišiček 2013-10-03

What do we know about the world? *Rhetorical and Argumentative Perspectives* is a book trying to answer the title question by contributing to rhetorical and argumentative studies. It consists of papers presented at the "First International Conference on Rhetoric in Croatia: the Days of Ivo Škarić" in May, 2012, and subsequently revised for publication. Through a variety of different routes, the papers explore the role of rhetoric and argumentation in various types of public discourse and present interdisciplinary work connecting linguists, phoneticians, philosophers, law experts and communication scientists in the common ground of rhetoric and argumentation.. The Conference was organized with the intent of paying respect to the Croatian

rhetorician and professor emeritus Ivo Škarić who was the first to introduce rhetoric at the Department of Phonetics at the Faculty of Humanities and Social Sciences, University of Zagreb.

Last Child in the Woods - Richard Louv

2008-04-22

"The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition *In his landmark work Last Child in the Woods*, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, *Last Child in the Woods*, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad

A Room of One's Own - Virginia Woolf

2020-10-29

In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman

must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, *The Guardian* 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, *The Financial Times*

understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

The Science of Good and Evil - Michael Shermer
2005-01-02

From bestselling author Michael Shermer, an investigation of the evolution of morality that is "a paragon of popularized science and philosophy" *The Sun* (Baltimore) A century and a half after Darwin first proposed an "evolutionary ethics," science has begun to tackle the roots of morality. Just as evolutionary biologists study why we are hungry (to motivate us to eat) or why sex is enjoyable (to motivate us to procreate), they are now searching for the very nature of humanity. In *The Science of Good and Evil*, science historian Michael Shermer explores how humans evolved from social primates to moral primates; how and why morality motivates the human animal; and how the foundation of moral principles can be built upon empirical evidence. Along the way he explains the implications of scientific findings for fate and free will, the existence of pure good and pure evil, and the development of early moral sentiments among the first humans. As he closes the divide between science and morality,

Shermer draws on stories from the Yanamamö, infamously known as the "fierce people" of the tropical rain forest, to the Stanford studies on

jailers' behavior in prisons. *The Science of Good and Evil* is ultimately a profound look at the moral animal, belief, and the scientific pursuit of truth.
