The Holy Land - Alda Merini 2002

Merini, like Dante, represents the story of the Exodus of the Israelites from Egypt, in its literal and allegorical senses. The forty poems of *The Holy Land* recall Moses at Mount Sinai, the Israelites' forty years in the desert, and Jesus' fast in the wilderness. For Merini, it seems, the Holy Land is not the Promised Land of Canaan, but the forty years spent getting there, coming to terms with the terrifying atrocities of hell, the mystical ecstasies of paradise, and the "intense pain...of plunging back into the banality of daily living." Merini's wandering may be understood as the poet's search for the obscure laws which govern her visions, metamorphoses, and creations.

The Good Liar - Nicholas Searle 2016-02-02

Now a major motion picture starring Helen Mirren and Ian McKellen. "A superb thriller and a truly engrossing read."—Ruth Ware, *New York Times* bestselling author of *In a Dark, Dark Wood* and *The Woman in Cabin 10* When Roy meets a wealthy widow online, he can hardly believe his luck. Just like Patricia Highsmith's Tom Ripley, Roy is a man who lives to deceive—and everything about Betty suggests she's an easy mark. He's confident that his scheme to swindle her will be a success. After all, he's done this before. As this remarkable feat of storytelling weaves together Roy's and Betty's futures, it also unwinds the past. Dancing across more than half a century—decades that encompass

unthinkable cruelty, extraordinary resilience, and remarkable kindness—it takes us right back to the beginning of their very different lives, following the twists and turns through childhood, an adolescence and young adulthood indelibly marked by war, and an adult existence carved out amid a world still reeling from its aftermath. As Roy's sins stack up against the burdens Betty carries, it becomes a story of salvation, and survival—and for Roy and Betty, there is a reckoning to be made when the endgame of Roy's crooked plot plays out. Some things can never be forgotten. Or forgiven.

Tales of the Punjab - Flora Annie Steel 2021-05-21

Tales of the Punjab (1894) is a collection of stories translated and collected by Flora Annie Steel. Collected while Steel lived with her husband in the north of the Indian subcontinent, Tales of the Punjab was a successful introduction to legends and stories from the Punjab region for children and adults back home in England. Published while India remained under the control of the British Empire, Steel's collection puts a decidedly Western twist on the stories she learned from local women while advocating for education reform. In a village in the Punjab, as the sun sets on an exceedingly hot day, the local people return from the fields to prepare dinner and settle down for the evening. As they await the cooling winds of midnight in order to sleep outside, the villagers gather around a local storyteller. Possessing a wide knowledge of legends, tales, and history, he calmly begins to speak to his gathered audience. "Sir Buzz" is the story of a woman and her son who are left in

dire poverty following the death of her husband, a soldier. Although young, the boy dreams of setting out into the world in order to bring something home for his mother. Finding six shillings in the pocket of an old coat, he leaves his home only to run into an injured tigress. Unable to remove a thorn from her paw, she asks the boy for his assistance, and offers him a mysterious reward. In "The Rat's Wedding," a rat takes shelter underground during a steady rainstorm. In his digging, he discovers a root, which he takes with him on his journey homeward once the rain subsides. Looking forward to using the root for himself, he encounters an old man struggling to light a fire with wood soaked through with rain. Exchanging his root for a piece of food, the generous rat continues on his way. Tales of the Punjab is a collection of forty-three instructive, humorous, and authentic stories translated by Flora Annie Steel. With a beautifully designed cover and professionally typeset manuscript, this edition of Flora Annie Steel's Tales of the Punjab is a classic of Anglo-Indian literature reimagined for modern readers.

But the CFO is badgering her to delay her team's audit of the company's books and directing others to block Cooper's efforts. Still, something in the pit of her stomach tells her to keep digging. Cooper takes readers behind the scenes on a riveting, real-time journey as she and her team work at night and behind closed doors to expose the largest fraud in corporate history. Whom can they trust? Could she lose her job? Should she fear for her physical safety? In *Extraordinary Circumstances*, she recounts for the first time her journey from her close family upbringing in a small Mississippi town, to working motherhood and corporate success, to the pressures of becoming a whistleblower, to being named one of Time's 2002 Persons of the Year. She also provides a rare insider's glimpse into the spectacular rise and fall of WorldCom, a telecom titan, the darling of Wall Street, and a Cinderella story for Mississippi. With remarkable candor, Cooper discusses her struggle to overcome these challenges, and how she has found healing through sharing the lessons learned with the next generation. Provocative, moving, and intensely personal, *Extraordinary Circumstances* is a wake-up call to corporate leaders and an intimate glimpse at a scandal that shook the business world.

Exterior Ballistics with Applications - Gjergj Klimi 2008-07-30

Exterior Ballistics with Applications Skydiving, Parachute Fall, Flying Fragments presents a modern approach to introduce the basics of exterior ballistics and its methods from the simple ideal model of projectile motion to the automatic solution of the differential equations of projectile flight using PC programs. The book uses different approaches to solve the differential equations of projectile motion among them the Siacci method and the numerical methods. The results obtained through the integration of differential equations of projectile flight are mostly analytical formulas that describe the projectile trajectory and make the exterior ballistics a comprehensible science. The Differential Equations

of Projectile Flight are also integrated numerically using some original PC programs that can be easily modified to be used in similar scenarios or other new ones and give the reader the possibility to solve a great variety of Exterior Ballistics problem. Exterior Ballistics with Applications can be considered as an interdisciplinary applied mathematics and physics manuscript for the vast mathematics and physics models and techniques employed. It is a great source for applications in physics, calculus, differential equations, numerical methods, and PC programming as well. The book is illustrated with about 140 solved examples related to different artillery and infantry firearms that demonstrate the use of formulas and the solution methods of ballistics to find the elements of projectile trajectories. Exterior Ballistics with Applications includes as well two interesting topics that can be considered as applications of exterior ballistics: 1. Skydiving and parachute falling related with the trajectory of a parachutist launched from a horizontally flying airplane with un-deployed parachute, in different meteorological conditions, and in presence of air resistance and wind. 2. The ballistics of projectile fragments that is an important element of Terminal Ballistics necessary to study the effectiveness of fragmentation ammunitions on the personnel and objects, and other problems related with the construction of fragmentation ammunitions, or with Forensic Sciences. Exterior Ballistics with Applications is comprehensive and serves as reference material to provide answers to problems encountered in the practice of motion of unguided projectiles, skydiving and flying fragments of antipersonnel ammunitions.
